Our logo is a valuable
element of our visual identity.

Our logo is a valuable element of our visual identity. The following examples are intended to demonstrate how to use the logo with equal space around.

Different color combinations
with contrast can be made.

In order to preserve the integrity of the logo, the following examples illustrate how it should NOT be used.

01

Do not change color elements of the logo.

02

Do not put the logo in a container or shape.

03

Do not fill the logo or elements of the logo.

04

Do not add effects to the logo.

05

Logo rotation: only in a 90° angle

06

Do not skew or alter proportions of the logo.

07

Do not place the logo on low contrasting colors.
